NOTICE TO THE MARKET

Blau Farmacêutica expands its Business Agreement with Green Cross Corporation

Blau Farmacêutica S.A. ("Blau" or "Company"), one of the leading pharmaceutical companies in Latin America in the non-retail segment, announces to the market the signing of the Supply Agreement Amendment with Green Cross Corporation (GCC). GCC, from South Korean, has been one of the Company's main suppliers of blood products since 1999.

This amendment extends the agreement for another five years, in addition to expanding in five medicines the Company's portfolio of biological products to the hospital market (private and public) with supply exclusivity for the Brazilian market.

About BLAU

Founded in 1987, BLAU Farmacêutica is one of the leading pharmaceutical companies in Latin America in the non-retail segment, with 100% Brazilian capital, which develops and produces high complexity drugs essential for human health - biologics, specialties, oncology, among others - and marketed with proprietary brands.

Established in the metropolitan center of São Paulo, Blau Farmacêutica has a modern pharmaceutical industrial complex, composed of four manufacturing plants, with state-of-the-art technology, dedicated to medicines production as biological, biotechnological, oncological, antibiotic, injectable, and biotechnological API (active pharmaceutical ingredients).
